

Emergency Contraception Screening Questionnaire

**We offer two forms of emergency contraception (EC):**

- 1. Plan C, the copper IUD: an intrauterine device inserted up to five days after the first act of unprotected sex. It is 99% effective and provides 10 years of lasting birth control.**
- 2. Plan B, one pill taken within 72 hours of the last act of unprotected intercourse. It is 89% effective, and you will need to follow up with a long term method of birth control to prevent pregnancy.**

Today's date: \_\_\_\_\_

Name: \_\_\_\_\_ Date of Birth: \_\_\_\_\_

When was the last time you had sex with no condom or birth control of any kind?

Date: \_\_\_\_\_ Time: \_\_\_\_\_

When was the first day your last period began? \_\_\_\_\_

Was this period normal in both its length and timing? \_\_\_\_\_ Yes \_\_\_\_\_ No
